- **Google Cloud** – Setting up Environment variables – managing port access
- **Nginx & UWSGI** – Setting up config and systemd files
- **Linux** – Debian – Ubuntu Server – SSH with RSA Keys
- **C#** – While learning object oriented programming in school
- **Languages** – Fluent in Arabic and English

## WORK EXPERIENCE

### **Deputy Compliance Officer | HODL Digital Services** **2020-present**

- Utilize regulatory guidelines to guide our companies procedures leading to compliance.
- Oversee high risk transaction monitoring, on boarding new clients, filing reports to FINTRAC, and training staff; allowing for the smooth operation of daily transactions.
- Automate tasks by scripting repetitive tasks, and creating a dashboard web application resulting in efficient compliance reporting and informed marketing decision making.

### **Sales and Installations | HODL Digital Services** **2018-2020**

- Conducted sales presentations to sign new locations and maintained relations with merchants by promptly resolving issues within merchant accounts.
- Team player by completing tasks outside of role such as marketing analysis, brand ambassadorship, etc. resulting in adaptability for any role; such as compliance officer.
